

## Connecting Women to Wildlife

### Trout Unlimited Canada - Prince County Chapter \$3,560 Grant

This aim of this project was to introduce women to hunting, and by extension, connect them with wildlife and conservation. The project built on the training component of a 2017-2018 project and focused primarily on mentored hunting opportunities.

#### Project Achievements:

- Offered mentored hunting opportunities.
- Hosted a field day that included an introduction to activities such as skeet shooting, duck calling, waterfowl identification, etc.
- Planned a field to table event to demonstrate cleaning and cooking game after a hunt.

*Having more hunters has long-term impacts: additional people become active in hunting and support wetland and habitat conservation through direct contributions of money and time.*
