Environment and Climate Change Canada also provided Wildlife Habitat Canada funding for two projects for over $125,000 in project operational costs from Intervale Associates in Newfoundland and Rural Lambton Stewardship Network in Ontario. These projects were able to be completed successfully and contribute another 160 acres to habitat conservation and engage over 315 participants in conservation.

**Restoring Habitat and Reducing Disturbance of Sea Ducks and Shorebirds of the Strait of Belle Isle and Northern Peninsula of Newfoundland**

- Restoration of Common Eider habitat on 6 islands through nest shelter assessment and removal.
- Outreach and bird identification training directly to 98 youth, youth instructors, and other supervisors.

COMMUNITY CONSERVATION ACTION PROGRAM

With the demand for conservation dollars becoming more and more competitive, WHC has been looking for a way to help smaller organizations access the funding that they need to make a difference in conservation within their local or regional community. WHC is pleased to introduce this 3-year pilot program, which will invest up to $50K/year in grassroots efforts to connect Canadians with nature and deliver conservation achievements on-the-ground.

The CCAP is aimed at small(er) organizations with funding requests between $1K to $10K. The goal is to support them in making conservation achievements in their communities. The specific focuses of this program are:

- Connecting Canadians with nature
- Engaging youth in conservation
- Providing educational conservation programming

Since its launch, the project has received an overwhelming response with more than 50 applications drafted and $260k in grant requests. This program is expected to deliver successful conservation results by assisting community organizations in connecting people to nature.
In April 2019, the Government of Canada announced an investment of $100 million over four years in the Natural Heritage Conservation Program (NHCP), as part of Budget 2018’s Nature Legacy initiative.

The NHCP is a public-private partnership which aims to assist and support the securement of key conservation areas across Canada, protect habitat for species at risk, enhance connections and corridors and stem the loss of biodiversity.

The Nature Conservancy of Canada, Ducks Unlimited Canada, Wildlife Habitat Canada and a variety of regional and local land trusts represented by the Canadian Land Trusts Working Group are working together under the NHCP, with a commitment to protect 200,000 hectares (494,210 acres) of habitat for species at risk that contributes to the goals of Pathway to Canada Target 1.
Land Trusts Conservation Fund

Under the NHCP, WHC is providing grant administration services for the Land Trusts Conservation Fund (LTCF), which is providing up to $4.5 million annually over four years to support Canadian community and regional land trusts in securing private lands and private interests in lands.

The work of Canada’s land trusts on private land coincides directly with those landscapes at greatest risk of further development and fragmentation and significantly contributes to the protection of habitat and species at risk.

In 2020, the second year of the program, the LTCF:

- supported 19 individual land trusts.
- funded 34 projects across Canada that are expected to benefit more than 45 species at risk.
- helped protect more than 2,850 hectares of habitat in key conservation areas.
- was matched with more than $18.7M in other non-federal funds.

For individual project highlights, please visit: whc.org/ltcf ("Awardees")
It is hard to believe, but we have already reached the halfway point of the Land Trusts Conservation Fund. The program is on track to exceed its target of securing 10,000 hectares of important habitat by the end of 2023, which will help protect a variety of species at risk across Canada.

**Land Trusts Conservation Fund**

The Land Trusts Conservation Fund is a component of the Natural Heritage Conservation Program, which is a $100 million investment by the Government of Canada as part of Budget 2018’s Nature Legacy Initiative.
Land Trusts Conservation Fund

Congratulations to members of Canada’s land trust community who received funding in the second year of the Land Trusts Conservation Fund program:

**Recipients**

- BC Parks Foundation
- Bruce Trail Conservancy
- Corridor Appalachien
- Escarpment Biosphere Conservancy
- Fiducie de conservation des écosystèmes de Lanaudière
- Georgian Bay Land Trust
- Habitat Acquisition Trust
- Island Nature Trust
- Nature-Action Québec
- Nova Scotia Nature Trust
- Ontario Farmland Trust
- rare Charitable Research Reserve
- Southern Alberta Land Trust Society
- Southern Interior Land Trust Society
- Thames Talbot Land Trust Society
- The Land Conservancy of British Columbia
- The Nature Trust of British Columbia
- The Nature Trust of New Brunswick
- Thunder Bay Field Naturalist Club

The Land Trust Alliance of British Columbia, the Ontario Land Trust Alliance and the Réseau de milieux naturels protégés worked collectively under the Land Trusts Conservation Fund to provide capacity building support to land trusts in adhering to the Canadian Land Trusts Standards and Practices (2019), and technical support for conservation planning, Pathway to Target 1, and land management.
CONSERVATION COMMUNITY PARTNERSHIPS

WHC maintains active membership and involvement on a variety of councils, boards, steering committees and teams that contribute to the development of policies, legislation for habitat and wildlife. This supports WHC’s objective to foster coordination and leadership in the conservation community across Canada.

INDEPENDENT AUDITOR'S REPORT ON SUMMARY FINANCIAL STATEMENTS

To the Members of Wildlife Habitat Canada

Opinion
The accompanying summary financial statements, which comprise the summary statement of financial position as at March 31, 2021, the summary statement of operations and changes in net assets for the year then ended, and the related note, are derived from the audited financial statements of Wildlife Habitat Canada for the year ended March 31, 2021. We issued a qualified audit opinion on these financial statements in our report dated June 14, 2021.

In our opinion, the summary financial statements derived from the audited financial statements of Wildlife Habitat Canada for the year ended March 31, 2021 are a fair summary of those financial statements, in accordance with criteria described in Note 1 to the financial statements. However, the summary financial statements contain a misstatement equivalent to that presented in Wildlife Habitat Canada's audited financial statements for the year ended March 31, 2021.

Summary Financial Statements
The summary financial statements do not contain all the disclosures required by Canadian accounting standards for not-for-profit organizations applied in the preparation of the audited financial statements of Wildlife Habitat Canada. Reading the summary financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited financial statements of Wildlife Habitat Canada and the auditor's report thereon.

The Audited Financial Statements and Our Report Thereon
We expressed a qualified audit opinion on those financial statements in our report dated June 14, 2021. Our qualified opinion was based on the fact that we were unable to obtain sufficient appropriate audit evidence regarding the carrying amount of the investment in a joint venture accounted for using the equity method in the amount of $721,299 as at March 31, 2021. Accordingly, we were unable to determine whether any adjustments to this investment were necessary as at March 31, 2021.

Management's Responsibility for the Summary Financial Statements
Management is responsible for the preparation of a summary of the audited financial statements in accordance with criteria described in Note 1 to the financial statements.

Auditor’s Responsibility
Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Canadian Auditing Standard (CAS) 810, "Engagements to Report on Summary Financial Statements."

</table>
The Joint Venture (Joint Venture Fund) refers to WHC’s share of investment in the Antelope Creek Ranch. WHC restated its prior years’ financial statements to recognize its investment in the Antelope Creek Habitat Development Area, made in 1988, using the equity method.
WILDLIFE HABITAT CANADA

NOTE TO THE SUMMARY FINANCIAL STATEMENTS
MARCH 31, 2021

1. SUMMARY FINANCIAL STATEMENTS

The summary financial statements are derived from the complete audited financial statements, prepared in accordance with Canadian accounting standards for not-for-profit organization, as at and for the year ended March 31, 2021.

The preparation of these summary financial statements requires management to determine the information that needs to be reflected in the summary financial statements so that they are consistent, in all material respects, with or represent a fair summary of the audited financial statements.

These summarized financial statements have been prepared by management using the following criteria:

(a) whether information in the summarized financial statements is in agreement with the related information in the complete audited financial statements; and

(b) whether, in all material respects, the summarized financial statements contain the information necessary to avoid distorting or obscuring matters disclosed in the related complete audited financial statements, including the note thereto.

Management has determined that the statement of cash flows and notes to complete financial statements do not provide useful additional information and, as such, has not included it as part of the summary financial statements.

The complete audited financial statements of Wildlife Habitat Canada are available upon request by contacting the Organization.
