

Nova Scotia Eastern Habitat Joint Venture (NS-EHJV) Wetland Stewardship Program

Nova Scotia Department of Natural Resources - Wildlife Division
\$50,000 Grant

The NS-EHJV Wetland Stewardship Program facilitates partnerships to improve the conservation, restoration and enhancement of wetland habitat and biodiversity within Nova Scotia. A key program area is working with farmers and agricultural support workers in the agricultural landscape.

Project Achievements:

- 9 Agricultural Biodiversity Conservation (ABC) Plans were completed, covering 2,130 acres of habitat.
- 4 Treasured Wetlands had signage erected, photo posts, and online presence.
- Prepared a draft Municipal Habitat Conservation and Stewardship Plan for Halifax Regional Municipality, Nova Scotia.
- Held a saltmarsh seminar at Dalhousie University.
