Saskatchewan Prairie Conservation Action Plan

Campagne et webinaires #InvasiveWeeds (Native Prairie Speaker Series et Prairie's Got the Goods Week)

Réalisations du projet :

- SK PCAP a organisé 12 webinaires dans le cadre de la série de conférences sur les prairies indigènes au cours de l'exercice et a abordé des sujets tels que les espèces envahissantes, les serpents, les oiseaux chanteurs des prairies, les feux dirigés et les bassins versants.
- SK PCAP a organisé 6 webinaires pendant la semaine Got the Goods dans les Prairies et a couvert des services écologiques tels que la séquestration du carbone, la prévention des inondations, la pollinisation et plus encore.

Oiseaux Canada

Atlas des oiseaux nicheurs de la Saskatchewan: un partenariat public-privé pour la conservation

Réalisations du projet :

- Enregistrement des données de rapport de 2 952 carrés d'atlas.
- > 299 000 observations de 267 espèces.
- 12 partenaires industriels.

Water Security Agency

Conservation and enhancement of wetlands and analysis of human dimensions aspect of bird hunting in Saskatchewan

Project Accomplishments:

- The project converted 499 acres of cropland to perennial forage, which resulted in conservation of 44 acres of wetlands in NAWMP Target Landscapes.
- Eight landowners shared costs for seed purchase and provided in-kind support for labour and seeding equipment.

Water Security Agency

Conservation et mise en valeur des milieux humides et analyse de l'aspect humain lié à la chasse aux oiseaux en Saskatchewan

Réalisations du projet :

- Le projet a permis de convertir 499 acres de culture en fourrage pérenne, ce qui a entraîné la conservation de 44 acres de milieux humides dans les paysages cibles du PNAGS.
- Huit propriétaires fonciers ont partagé les coûts d'achat des semences et ont fourni un soutien en nature pour la main-d'œuvre et le matériel d'ensemencement.
