The **Local Biodiversity Impact Grant Pilot Program (LBIGP)** powered by Cascades, supports organizations, municipalities, and Indigenous communities undertaking high-impact, place-based conservation projects in areas where Cascades has operational facilities. This program funds tangible actions for conservation that restore, protect, and enhance biodiversity while engaging local communities in action for nature.

Core focus:

- Wetlands, riparian corridors, forests, grasslands, and estuaries
- Species at risk and declining wildlife
- Water and nature-based solutions with biodiversity as the primary outcome

Program objectives:

- Restore Foundations of Biodiversity
- Support projects that enhance, restore or create habitats essential to native wildlife and biodiversity such as pollinators, insects, fungi and microbes
- Reduce Habitat Loss and Fragmentation
- Reconnect fragmented forests, wetlands, grasslands and or riparian corridors
- Reduce Environmental Pressures on Natural Areas
- Decrease litter, landfill waste, and material contamination in watersheds and wildlife habitats
- Build Community Engagement and Stewardship Capacity
- Mobilize volunteers, schools, and local groups in conservation actions
- Provide Measurable Environmental Outcomes
- Track quantifiable impacts such as habitat improved (hectares), waste collected and removed (kg/lbs), and participation metrics

Matching funds may include both cash and in-kind contributions.

In-kind match refers to the cash-equivalent funding in the form of a donation (donated land, products or donated services) for which no cash is exchanged but is essential to the project and that would have to be purchased on the open market, or through negotiation with the provider, if it were not provided.

Over the course of the project agreement, **a minimum of 1 social media post recognizing Cascades and WHC is required, per project.**

Communications Activities and Requirements:

This is done by comparing project results against WHC's performance indicators. WHC's grant application form and reporting templates have been designed to collect the project results and information that are required for evaluating the grant program. Awardees are expected to submit a final report and advise WHC immediately of any challenges or substantial changes, including updates on project progress, continued alignment with LBIGP objectives, overall accomplishments, and the significance of the biodiversity need addressed.

B-1: Application Form Requirements

a) How many Application Forms can I submit?

Applicants are only permitted to submit one project per Application Form but **may submit multiple Application Forms (projects)**. If planning to submit more than 3 applications, please contact Sarah Thomas at stthomas@whc.org to discuss prior to application.

b) How do I submit the Application Form?

Application Forms must be completed and submitted [online](#). Applicants will be prompted first to create a username and login password, and the Application Form itself can be saved at any point in time during the completion of the form. If an Applicant has applied to previous program years of any WHC Grant Program, the same username and password can be used to complete the Application Form.

c) What documentation will be required as part of a complete Application Form?

The list of documentation required in the Application Form is listed under [Chart 2: Checklist of Required Documentation for Application and Installments](#). If an Applicant fails to upload the correct, requested documentation in the acceptable format with their Application Form submission, the application may be deemed incomplete and disqualified from funding consideration.

d) How do I know if my Application Form was successfully submitted online to WHC?

Applicants will receive an automated email when the Application Form has been submitted successfully.

B-2: Evaluation of the Application Form

a) How and when will my Application Form be reviewed?

Grant applications submitted by the deadline will be reviewed by WHC Staff for eligibility requirements and then undergo an internal review process to evaluate the projects potential. Eligible applications will be evaluated on the relative strengths of the biodiversity and conservation criteria. If the Application Form does not meet eligibility requirements or convey competitive biodiversity/conservation value, WHC reserves the right to reject the project.

b) Who will evaluate my Application Form?

Applications are reviewed by WHC staff for eligibility and completeness. Once marked as complete, WHC staff review each application and discuss the potential of each project as well as its relevance to LBIGP metrics. WHC then presents applications recommended for funding to Cascades for final funding decisions.

B-3: Award/Rejection Letters

a) When and how can I expect to receive an award/rejection letter?

Funding decisions will be made, and applicants will be notified in November 2026. Award/rejection letters will be distributed via email.

Applicants with projects approved for funding will receive a funding agreement ("Letter of Agreement") for signature. Applicants are strongly encouraged to review the Letter of Agreement template in the

application stage, as no changes will be made to this document. Funding is subject to projects meeting the conditions and requirements set out in the Letter of Agreement.

B-4: Approved Projects Payment Schedule

a) **What documents are required before WHC releases the payment of funds?**

Payment will be processed for release to awardees via electronic transfer, following WHC's review and approval of required deliverables.
